Reading These Charts

1 Type of school:

I=Independent
R=Religious
C=City College affiliate
P1=Public, District 1
P2=Public, District 2
P3=Public, District 3
P4=Public, District 4
P5=Public, District 5

2 Size of School: For K-12, and other schools, this is the size of the entire school, not just the elementary population.

3 Average Class Size/Student-Teacher Ratio: For public schools, this number represents average class size. The figures come from www.insid-eschools.org and are from the year of the school visit, noted in each school's profile. For independent and religious schools, this number represents student-teacher ratio. The figures come from the website www.nces.ed.gov for the 2003-2004 school year, or from the schools themselves as of 2006.

4 4th Grade Exams: This is the percentage of students who placed in levels 3 and 4 on the 2004-2005 New York State 4th Grade Math and Reading exams. Students at levels 3 and 4 meet or exceed standards. Those at level 1 have serious deficiencies and those at level 2 do not have full mastery of the standards.

*These schools do not administer the exams.

Public school information comes from school report cards posted on the Department of Education's Web site, <http://schools.nyc.gov/default.aspx>.

Other school information comes from the National Center for Education Statistics, U.S. Department of Education, www.nces.ed.gov. NCES figures are from the 2003-2004 school year; more recent figures had not been released at press time.
