Jo million- aire

Now that **Scarlett Johansson** is settled in to her \$2.2 million manse in Amagansett

near her pal **Gwyneth Paltrow**'s property, she has been spotted on the real estate prowl in Manhattan.

One unit that caught her eye was a \$4 million penthouse at 230 E. 63rd St. The full-floor, 1,743-square-foot unit has two bedrooms, home office and floor-to-ceiling windows, but the best feature is the apartment's roof terrace. The newly constructed building has a limestone facade and comes with just six units. Warburg's **Richard Steinberg**, who is marketing the building, declined to comment.

Johansson also looked at downtown properties with her brother, real estate broker **Adrian Johansson**. One spot they checked out was a three-bedroom, four-bathroom duplex in the Silk Building, at 14 E. Fourth St., which was asking \$3.69 million. Its broker, Douglas Elliman's **Frances Katzen**, didn't return calls.
